

## Quantum Soul Clearing Statements

“Mother/Father, God/Goddess, Creator; and I are ONE, we co-create together as a unified, quantified, co-creative team. By the Power, the Authority and Divinity inherent within me, through my connections with and Oneness as Absolute, Ultimate, Infinite, Radiant, Golden Quantum Source Light, please prep to clear, create, manifest and play.

Please prepare, place, establish and strengthen sacred Quantum Source-Light containment and protection fields within, on, around and through me and my loved ones, my home, my place of work, businesses, vehicles, finances, financial interests, gifts, talents, expressions and all intellectual properties. Clear and remove all, dark portals, toxic streams and decaying universes, any and all types of extra souls, entities, and attachments, all negative motivations, blocks to positive expressions, all interferences, all sparks, programs, issues and challenges, all looping, beyond looping and toxic looping patterns and programs. Clear anything less than Quantum Source Light Frequencies, all their effects and everything they represent from in, on, around and through all of these containment and protection fields and me [and my loved ones].”

## The Download

Once the clearing statements above are completed, say the following:

**"Please download \_\_\_\_\_ and everything it represents."** (ask for whatever frequencies you'd like to have the old stuff replaced with – it can be as many things as you'd like)

Once you've finished your list of things you want to download; then say:

**"Please download any other Quantum Source Light frequencies that may not have been said but that are needed in any and all languages."**

**"Please download, infuse, implement and integrate all these new frequencies and everything they represent. Clear and Remove all old limiting patterns and programs; and replace with all of these New Frequencies and everything they represent at all levels, layers and depths of my Being."**

Wait to feel the shifting of the energies then say:

**"Activate, Synchronize, Harmonize and Optimize all of these new frequencies and everything they represent. Please integrate and anchor them in at all levels, layers and depths of my Being. Then, please apply them all as functional skill sets."**
